4. Returning plaintiff to his real Jewish family.
5. A monetary award to be determined by Jury.

### IV. Argument

Plaintiff (19 stands for Adam) is nearly 50 years old who was kidnapped as a young child from an Israeli Jewish family in Jerusalem, Israel around 1972. The plaintiff/victim does not know his real name since the Defendants/Kidnappers gave him a fake name and a name of an Arab Muslim (Muamar Asad Sayyed /AKA Muamar Asad Asad (Alien # A42 164 835). Plaintiff seeks an investigation and his reunification with his real family.

Genetic Genealogy, Also Known as forensic Genealogy has already confirmed conclusively that the plaintiff is not a member of the Assad family.

So who is The plaintiff? And for what reason was he taken from his real family and brought to be destroyed into the United States?

No motive is needed to prove a kidnapping charge. Either DNA evidence can be relied on or not? And we rely on DNA evidence all over the U.S. courts in America.

Plaintiff seeks an immediate and transparent investigation into his kidnapping starting with the collection of DNA samples from all Defendants including those deceased and already buried.

### A Diabolical Motive

Although a motive is not needed to prove a kidnapping, plaintiff might be able to shed some light on the matter.

Let us suppose, for example, that we know that Hitler would cause the death of 72 million people

including 6 Million Jews. Our knowledge came from the science of code breaking the Jewish Torah not unlike the work done during world war II in Bletch park by professor Bradford in England. Would it then be inconceivable to do something to stop him?

So with the combined powers of the U.S., England, The Allies, and the Jews, The Hitler Baby is switched at birth and raised instead as a Jew. In so doing, over 100 million are spared the misery, pain and suffering of world war II.

### The Arab Muslims of The Middle East

The United States and Israel are the declared sworn enemies of the Arab Muslims of the Middle East. Let us never forget 9/11/2001?!

As with the Hitler example, Suppose that the Arabs - After their disgraceful defeats in 48 and 67 - learned through code breaking Divine books that the Jews and Christian's Messiah and Savior that would make Israel the leader of Earth along side the U.S., would

be born on a certain date, place, and given a certain name. As with Hitler example, the Arabs switched the Jewish Israeli baby (plaintiff) with another child.

Of course we are not certain why the switch or the kidnapping was done. What we are certain of is that DNA evidence proves that something was done, why? We are not sure.

### V. Conclusion And Prayer

DNA conclusive Evidence proves that plaintiff was not the biological son or brother of the named Defendants. As such plaintiff prays that he is granted the relief that he seeks.
